

Policy Statement SHE

Safety – Health – Environment

Romarco strives to be a leading company in the domain of industrial cleaning and asbestos removal.

Her passion for industrial cleaning and asbestos removal is based on professionalism, quality, sincerity and the wish for nonstop improvement.

The integration of permanence in the domain of the cleaning method is part of this too.

This is only possible thanks to our qualified and trained employees.

For that reason Romarco wants to give her employees all necessary means and a good frame, of which the SHE policy is part of.

Romarco engages himself to create a safe and healthy work environment, based on the legal prescriptions and corresponding to all current standards within the line of business.

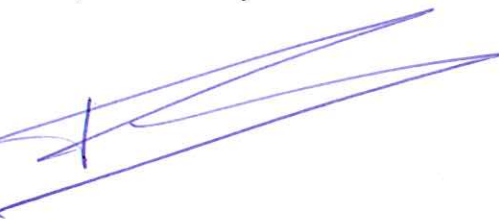

In this way, the Romarco Management wishes to protect her employees, subcontractors, clients and their personnel and all others concerned, against injuries and tries to prevent damage to material and environment.

This working atmosphere is essential for a good performance and contributes in an important way to the efficiency of the management of a project.

The Romarco Management and her hierarchy line commits to support this policy statement and to strive for continuous improvement of the safety, health, environment, professional organization and cleanliness.

The SHE policy must bring the awareness for safety, quality and environment of each employee to a higher level.

Zele, 21 January 2014.
